

# Malawi Report

In May Dr. Nkhoma reported that he went to the village of Makawa in the Mangochi District to establish a local church. During the meeting there were three Muslims who were saved following the preaching of the Gospel.

The church that was organized was the fourth Landmark Baptist church in the Mangochi District. Brother Robert Khamba was called as the pastor and he and his family promised to hold strong to the Baptist teaching which he claims to be original and genuine teaching.
